

Highlights at a Glance

Rotating Disc Brushes

Instead of vulnerable belts, a robust worm gear ensures a reliable drive for our disc brushes. Dirt is collected in front of the machine and transported directly into the container—efficient and thorough.

For true professionals: the Turbo Sweeping System, with an additional fine dirt roller, picks up remaining fine debris in a second pass, significantly improving cleaning results!

Starmix product range
Innovative top product from one source
vacuum cleaners, hand dryers, hair dryers and sweepers with

- Best in Class Performance
- Exceptional durability
- Highest quality

CRAFT & CLEANING
The Starmix vacuum range offers powerful solutions for all tasks in the craft and cleaning sectors.

SANITARY
We offer hand and hair dryers, including combined hand-hair dryers, for high-quality and hygienic sanitary areas.
